# Brand overview

URBAN AESTHETIC ENTRANCE  
DOOR SYSTEMS

Our company is a modern enterprise specializing in the research and development, production, sales and service of doors. The main products include premium aluminium entrance doors, interior doors, pivot doors and hinged doors. The company has a high-quality technical management team, high-precision production processes, advanced equipment, and strong manufacturing capability.

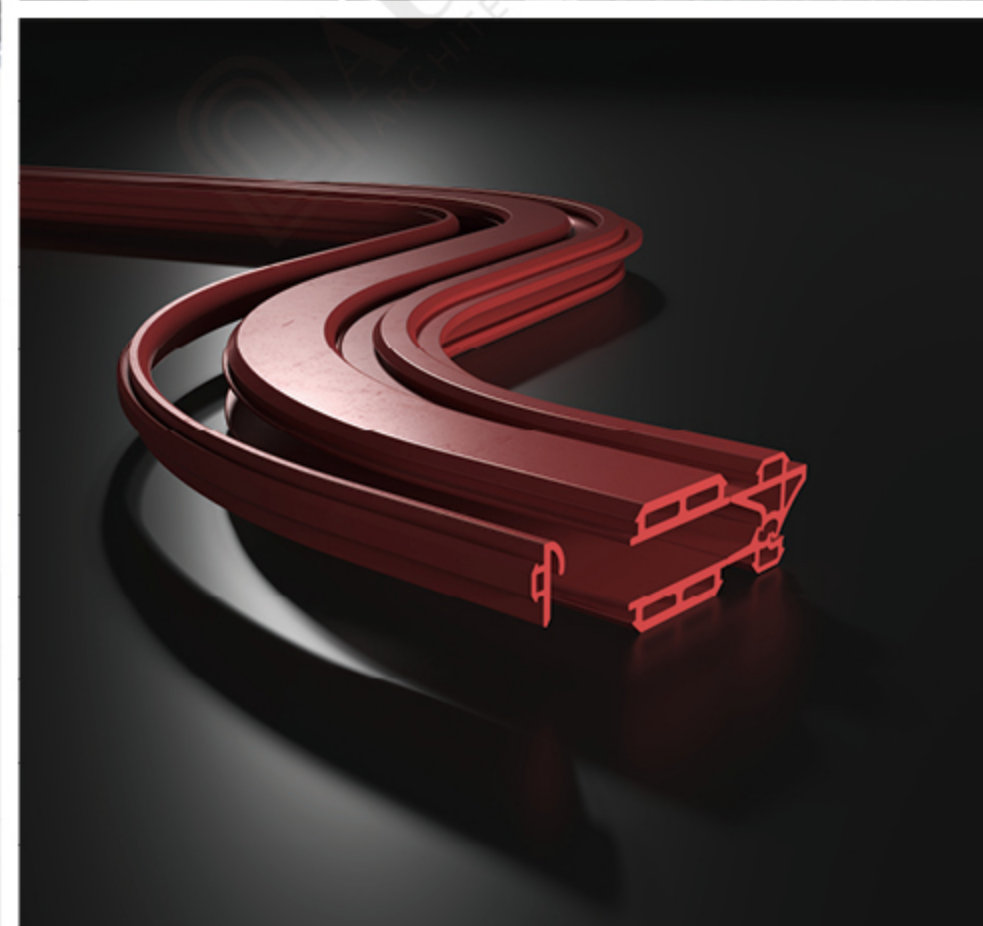

The company has always focused on strengthening product research and development capabilities, employing experienced professionals in door engineering, and has achieved great success in residential and commercial door applications. Our products are designed to meet the personalized needs of modern living and aim to deliver safe, comfortable, well-equipped and high-quality entrance and interior door solutions. They are developed and produced in accordance with international standards.

The production process is strictly controlled, with a strong emphasis on excellence and quality inspection. All procedures are rigorously tested and monitored to ensure superior workmanship.

Our products offer the advantages of advanced production technology, high structural stability, refined aesthetics, and outstanding durability. They have been widely recognized and well received by consumers.

The company adheres to the business philosophy of PRAGMATISM, DEVELOPMENT, INNOVATION AND DEDICATION. Our key values are "leading technology, high quality and efficiency, customer-first principles, and keeping promises." With modern technology and dedication, we aim to become a trusted leader in the door industry, committed to building a reputable and influential international brand.

## 5 level

### Level 5 sound insulation solution

The entrance doors are made of double or triple-layer Car-Borne leather and high-quality wood along with other materials. It is finalized after repeated experiments and tests, and a specially treated sound insulation layer is used during the processing. As a result, the sound on one side of the entrance door needs to pass through multiple layers of acoustic reflection to achieve a sound insulation effect of 42 decibels.

## 3 level

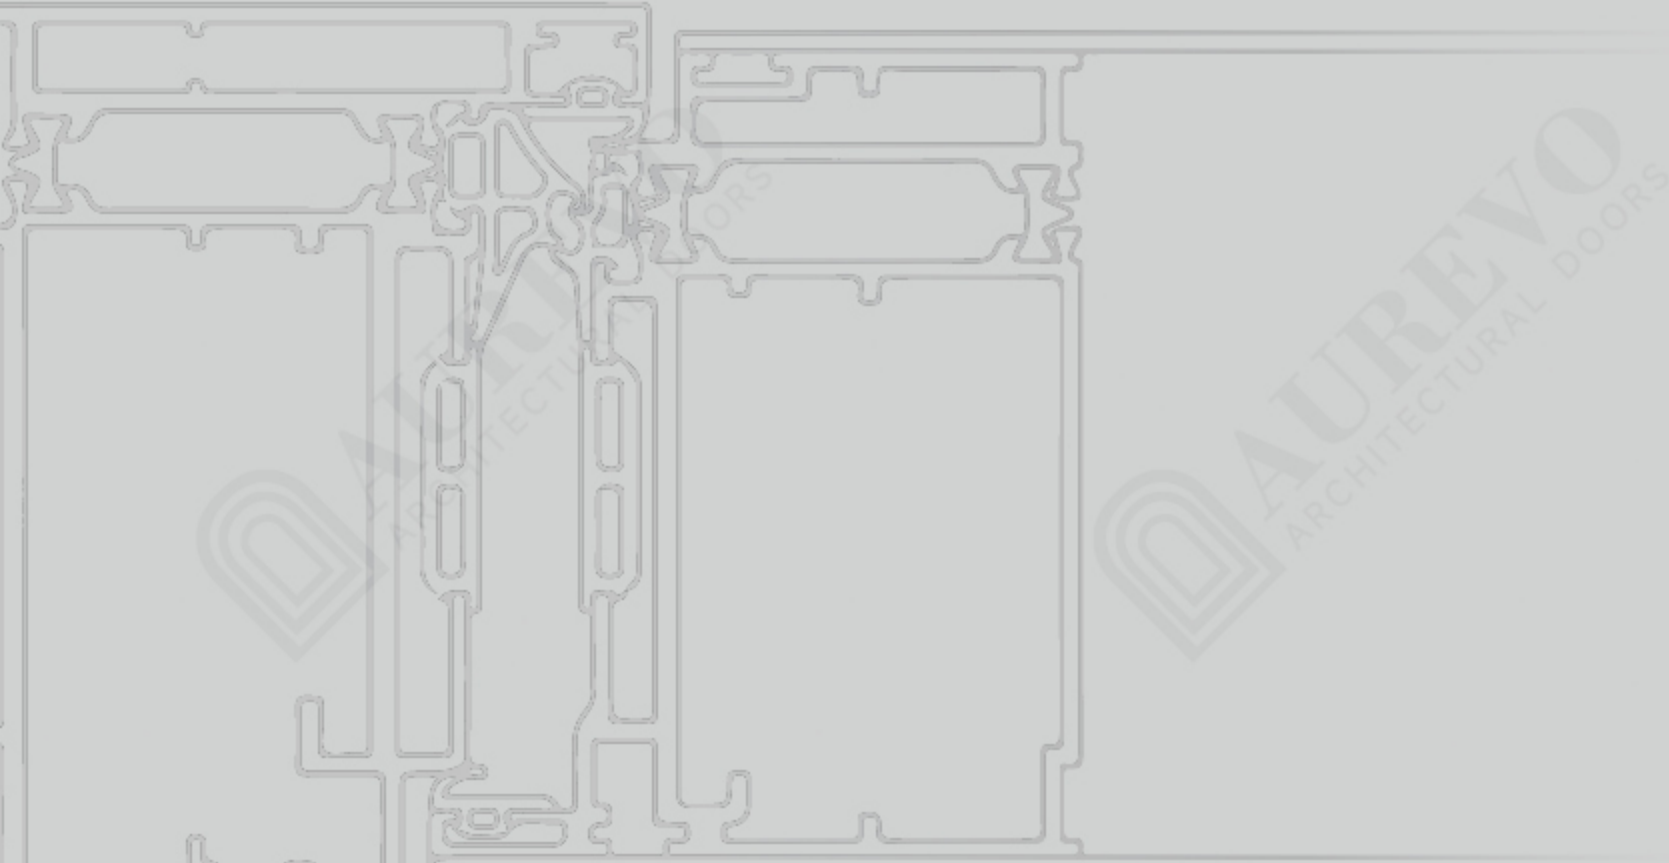

### Waterproof sealing technology and application

The entrance door system integrates water-blocking, water-collecting, water-draining and anti-backflow prevention. The four special original seals ensure that the frame and sash overlap without gaps, significantly enhancing the overall waterproof performance.

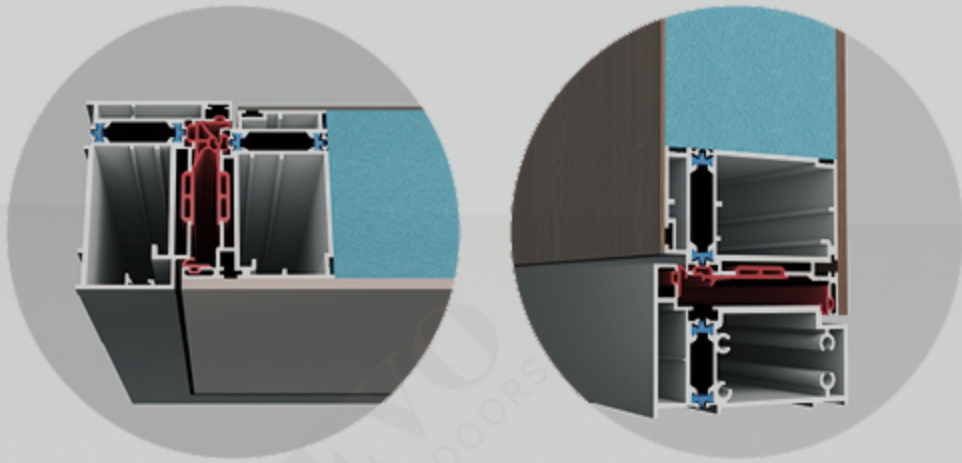

### Technology and Application of Thermal Insulation

Through the unique combination of materials and precise connection points, the door can deliver superior thermal insulation under different climatic conditions, thereby improving the building's comfort in terms of temperature, acoustic comfort, energy efficiency, and health.

### THE THERMAL BREAK SYSTEM

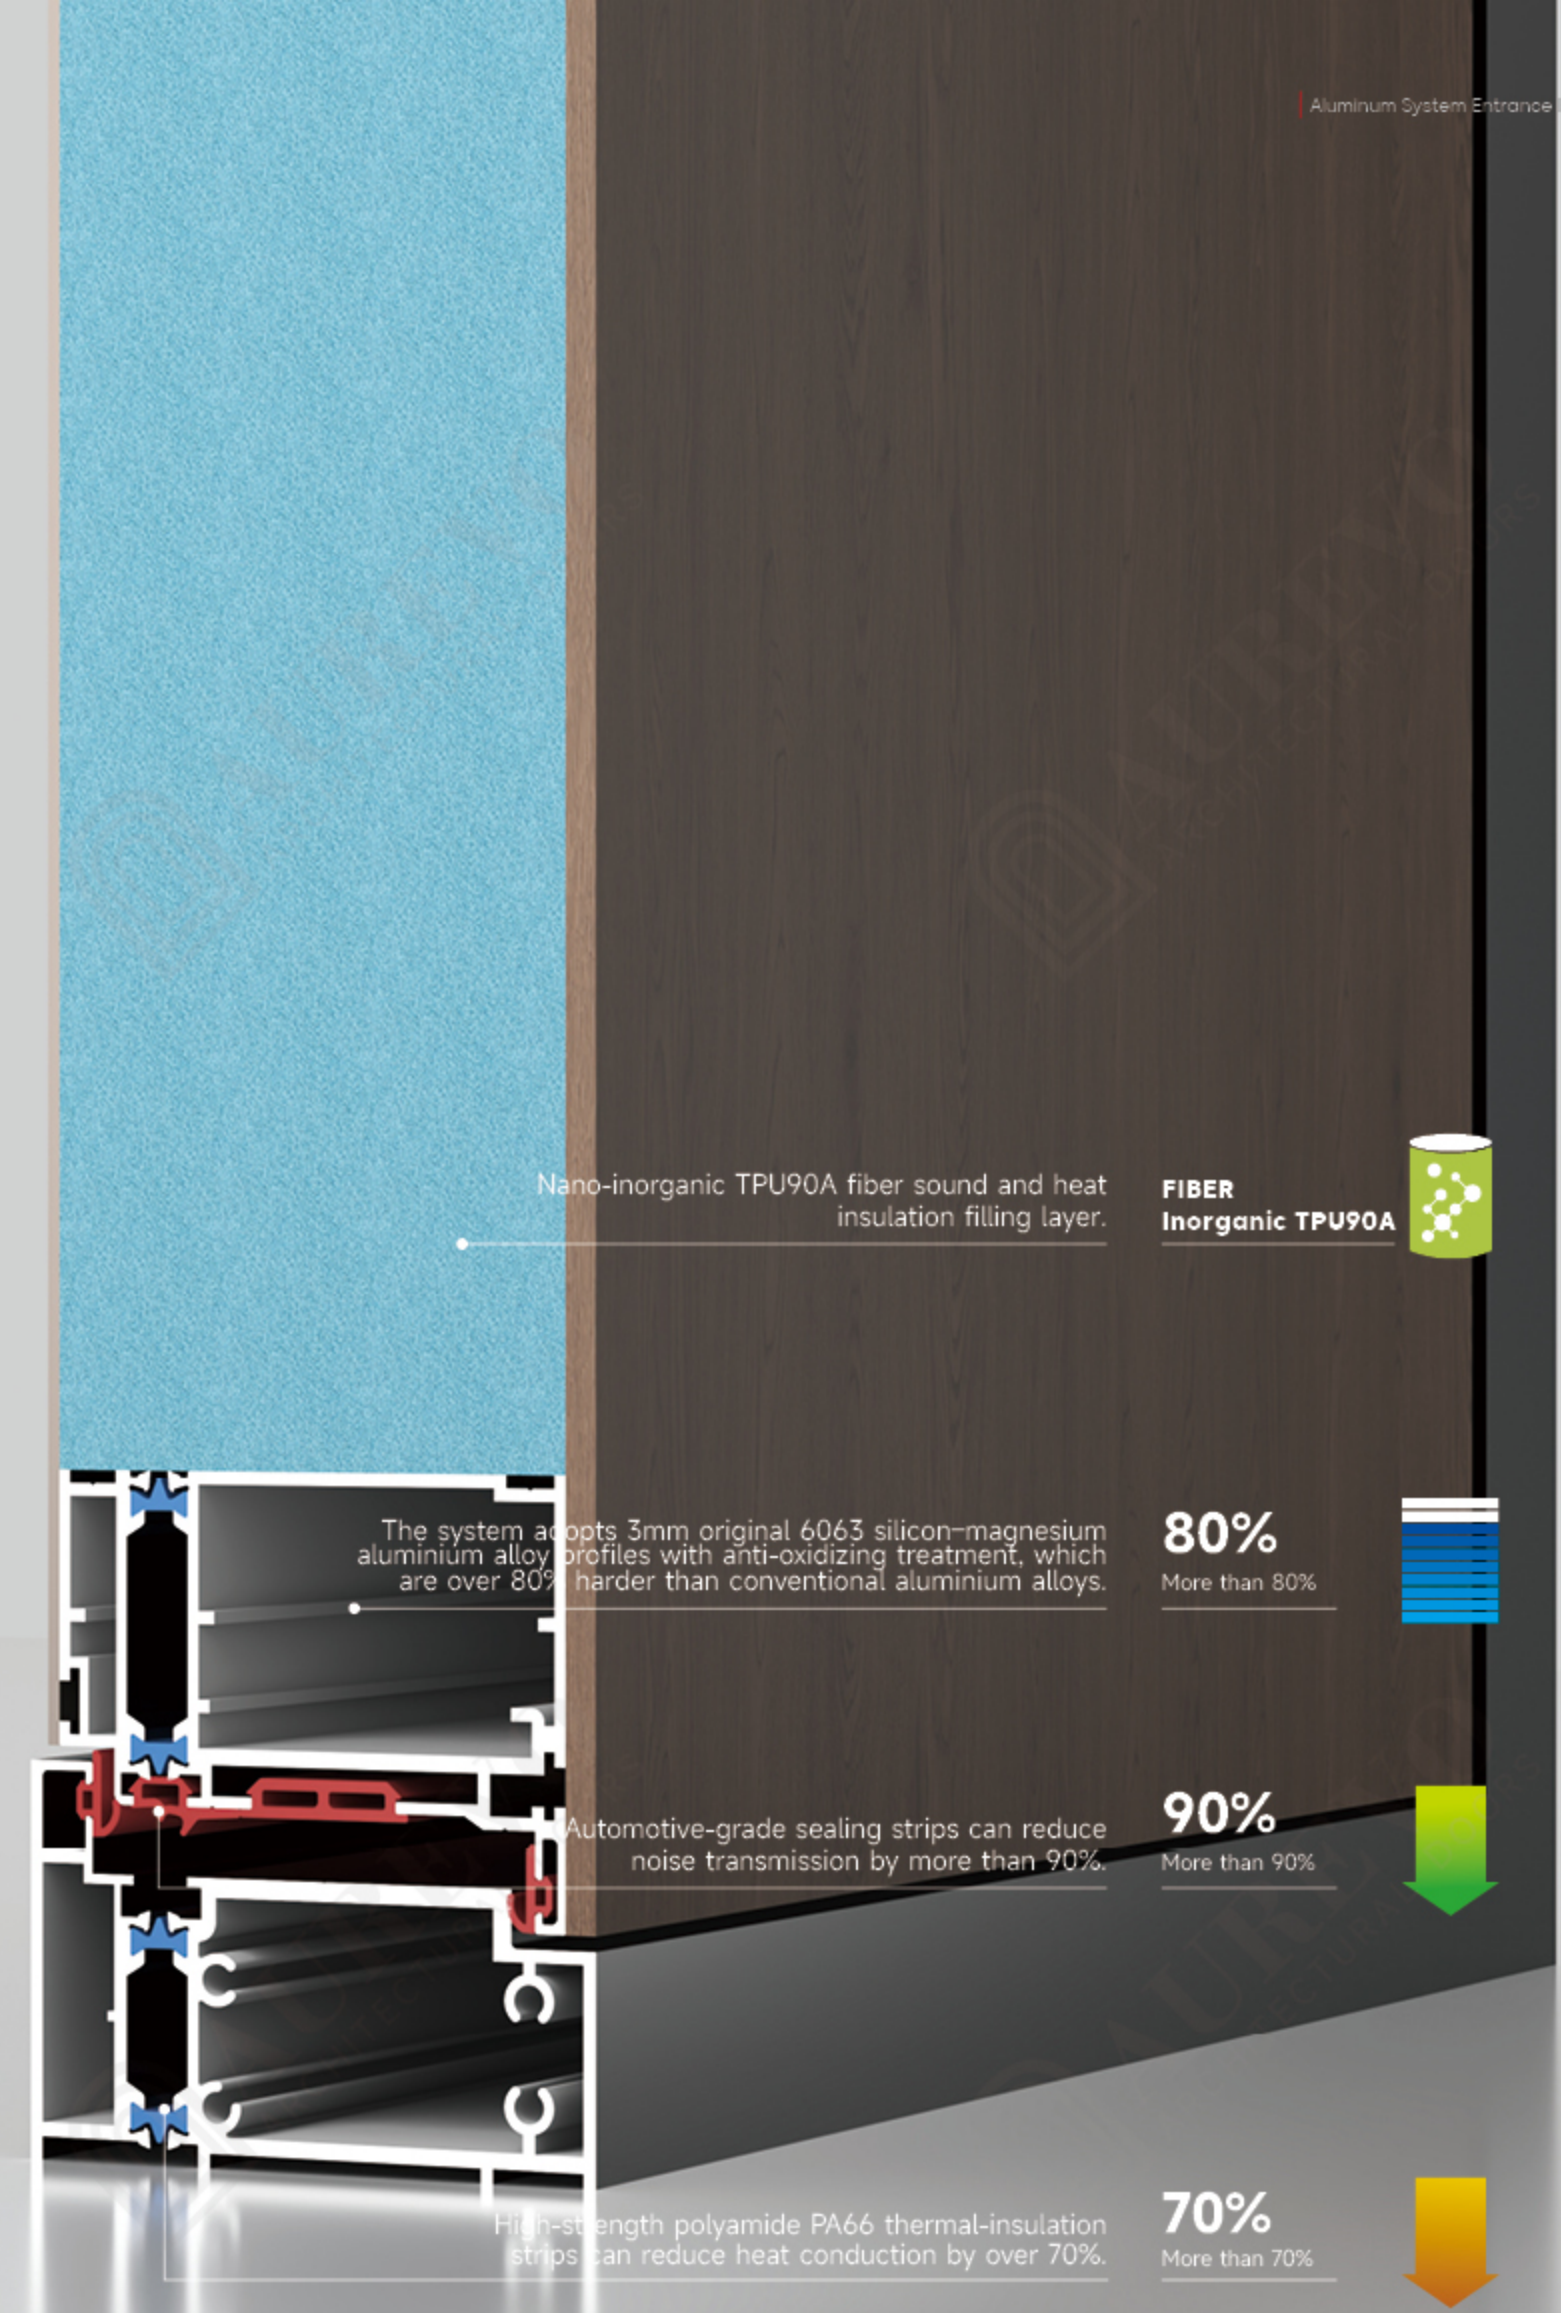

LET QUALITY DEFINE TASTE — BECAUSE WE PAY ATTENTION TO EVERY DETAIL.

The Thermal Break System integrates enhanced security, superior thermal and acoustic insulation, excellent water tightness and improved air tightness. Through this advanced structural design, the door system delivers higher overall performance and greater indoor comfort.

### MAKE YOUR LIVING SPACE MORE COMFORTABLE AND UNIQUE

The disconnected profiles are joined using low-thermal-conductivity thermal break strips and high-performance sound-insulation seals, reducing noise transmission by more than 90%. The polyamide PA66 thermal barrier seals minimize heat conduction by over 70%. The nano-inorganic insulation fiber filling layer further enhances the system, forming a highly efficient sound- and thermal-insulation structure for long-lasting comfort and energy efficiency.

Nano-inorganic TPU90A fiber sound and heat insulation filling layer.

**FIBER**  
Inorganic TPU90A

The system adopts 3mm original 6063 silicon-magnesium aluminium alloy profiles with anti-oxidizing treatment, which are over 80% harder than conventional aluminium alloys.

**80%**  
More than 80%

Automotive-grade sealing strips can reduce noise transmission by more than 90%.

**90%**

ALUMINIUM PIVOT DOOR SERIES

The innovative thermal-insulation system offers remarkable advantages in profile design, performance, and technology. Our original intelligent-security system further elevates the safety, functionality, and craftsmanship of modern entrance doors.

ALL ALUMINIUM GLASS DOOR SERIES

Modern urban elites pursue a refined lifestyle, seeking to elevate both aesthetics and everyday living. Our unwavering dedication to precision ensures that every detail brings warmth, elegance, and sophistication, achieving excellence in every aspect.

ONE DOOR ONE VIEW ENTRANCE DOOR SERIES

The advanced intelligent-core system is seamlessly integrated to reflect the refined lifestyle pursued by today's discerning homeowners. The unified entrance façade design creates a cohesive visual statement, elevating the architectural character of the home. The distinctive material textures enhance the product's unique appeal, while understated luxury is expressed throughout.

THERMAL BREAK SYSTEM ENTRANCE DOOR SERIES

The thermal break system improves insulation and energy efficiency by separating the inner and outer aluminium profiles with high-performance PA66 barriers. Refined craftsmanship and cohesive material design elevate the entrance with a modern, understated architectural elegance.

## MODERN DESIGN INSPIRATION FOR PIVOT DOORS

The industry benchmark of pursuing perfection, our key performance indicators surpass standard requirements.

Our doors achieve a refined balance of functionality and aesthetics. Featuring a precision pivot structure, multi-layer seals, and advanced acoustic insulation, they reduce noise while ensuring smooth, effortless operation. Built with premium materials and secure hardware, they deliver long-lasting durability and safety.

A thoughtfully engineered drainage system prevents leaks and blockages for reliable performance. When opened, the clean lines and expansive glazing create a spacious, refined ambiance. These doors blend practicality with artistic elegance, enhancing the sophistication of any living space.

## ALUMINIUM PIVOT DOOR SERIES

### LUXURY PIVOT DOOR

The highest form of comfort is simply being present—enjoying the scenery, feeling the passage of time, and experiencing life at ease. A pivot door expresses this quiet elegance not through exaggeration, but through subtle presence. It is a way of thinking, and a way of living.

### LUXURY PIVOT DOOR

Craftsmanship is defined by ingenuity, precision, and a spirit of creation. Our doors are shaped not only by advanced manufacturing technology, but also by an understanding of modern living and design culture. Using genuine, carefully selected materials, each pivot door presents a refined and consistent aesthetic—where quality is paramount and taste is expressed with subtle sophistication.

Model HDM24007

Model HDM24008

## STRAIGHT LINES

Straight lines create a crisp, modern visual rhythm, defining the space with clarity and structure. Their refined geometry integrates seamlessly into daily life, offering a calm and contemporary design expression.

Model HDM24009

## ALUMINIUM PIVOT DOOR SERIES

### LUXURY PIVOT DOOR

Craftsmanship is defined by ingenuity, precision, and thoughtful design. Our doors are shaped not only by advanced engineering, but also by an appreciation of modern living and refined aesthetics. Using genuine, carefully selected materials, each pivot door delivers a consistent, high-quality finish that expresses subtle, timeless sophistication.

Model HDM24010

## SEALING SYSTEM

It reduces noise by more than 90%. Three high-performance airtight sealing strips ensure a seamless overlap between the frame and the sash, significantly enhancing waterproofing, airtightness, and overall sound insulation performance.

## FASHIONABLE AND ELEGANT

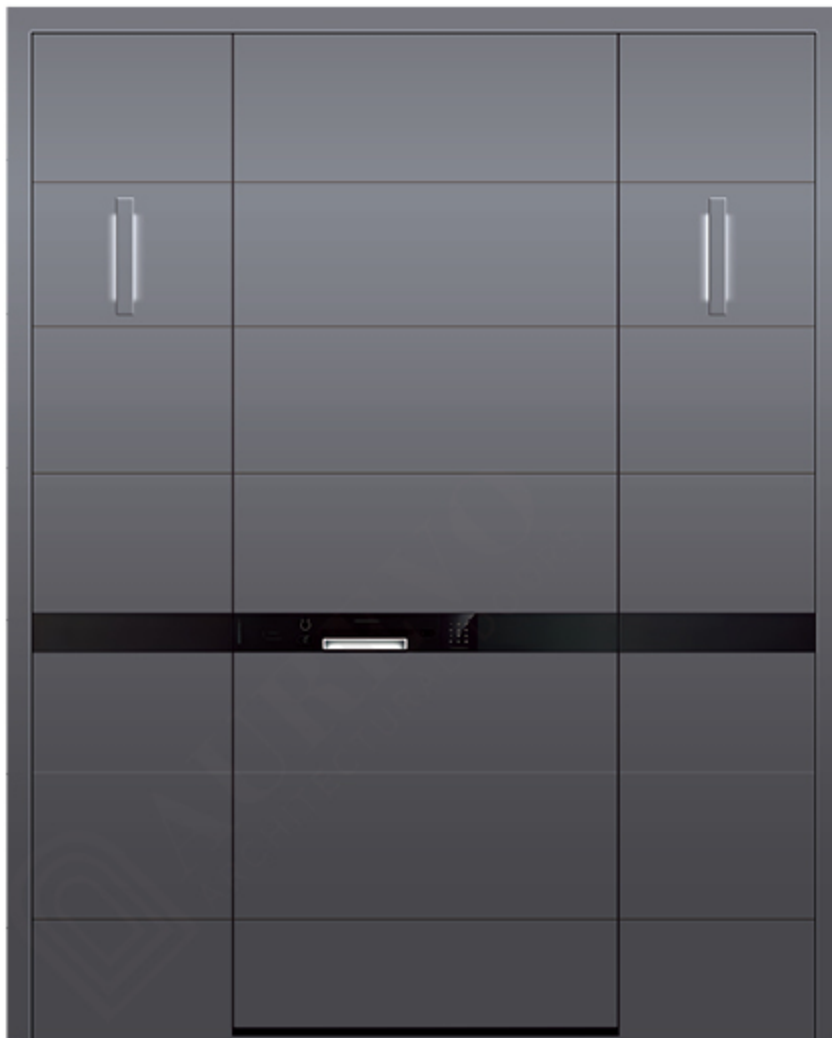

The refined, rounded handle exudes a warm bronze tone, expressing simplicity, dignity, and elegance. The subtle contrast of colours feels effortless yet intentional, revealing a quiet sense of sophistication and understated style.

## ALUMINIUM PIVOT DOOR SERIES

### DESIGNED FOR BETTER LIVING

The highest form of harmony is found in the quiet companionship of a well-crafted space—where doors frame life's moments and offer glimpses of beauty and the passage of time. Their essence is defined not only by visual presence, but by the atmosphere they create. More than an entryway, they embody a way of thinking and a way of living.

ALUMINIUM GLASS DOOR SERIES

## THERMAL-BREAK STRUCTURAL DESIGN

The thermal-break structure effectively interrupts heat transfer while delivering exceptional sealing performance. This allows the door system to perform reliably under extreme weather—from typhoons and heavy rain to high temperatures and freezing conditions—ensuring long-lasting comfort and protection indoors.

## ALUMINIUM PIVOT DOOR SERIES

### TOWARDS THE FUTURE OF MODERN LIVING

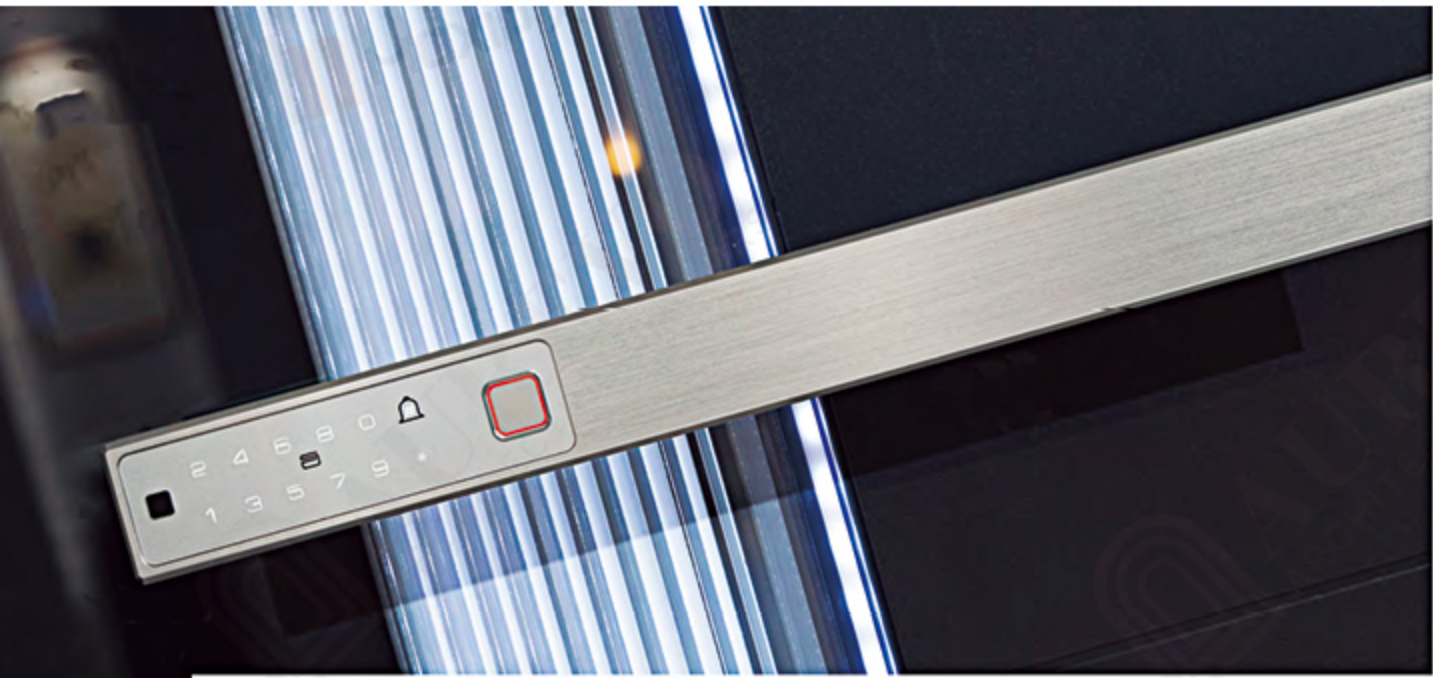

The design of this door is a statement of refined elegance—where clean, sculpted lines create a harmonious rhythm, shaping an entrance that reflects the future of modern living. Its unique luxurious charm extends beyond aesthetics, delivering a balanced interplay of structure and fluidity. The interaction of form, light, and shadow enriches the space, transforming it into a sanctuary of tranquility and artistic expression.

Model HDM24021

Model HDM24022

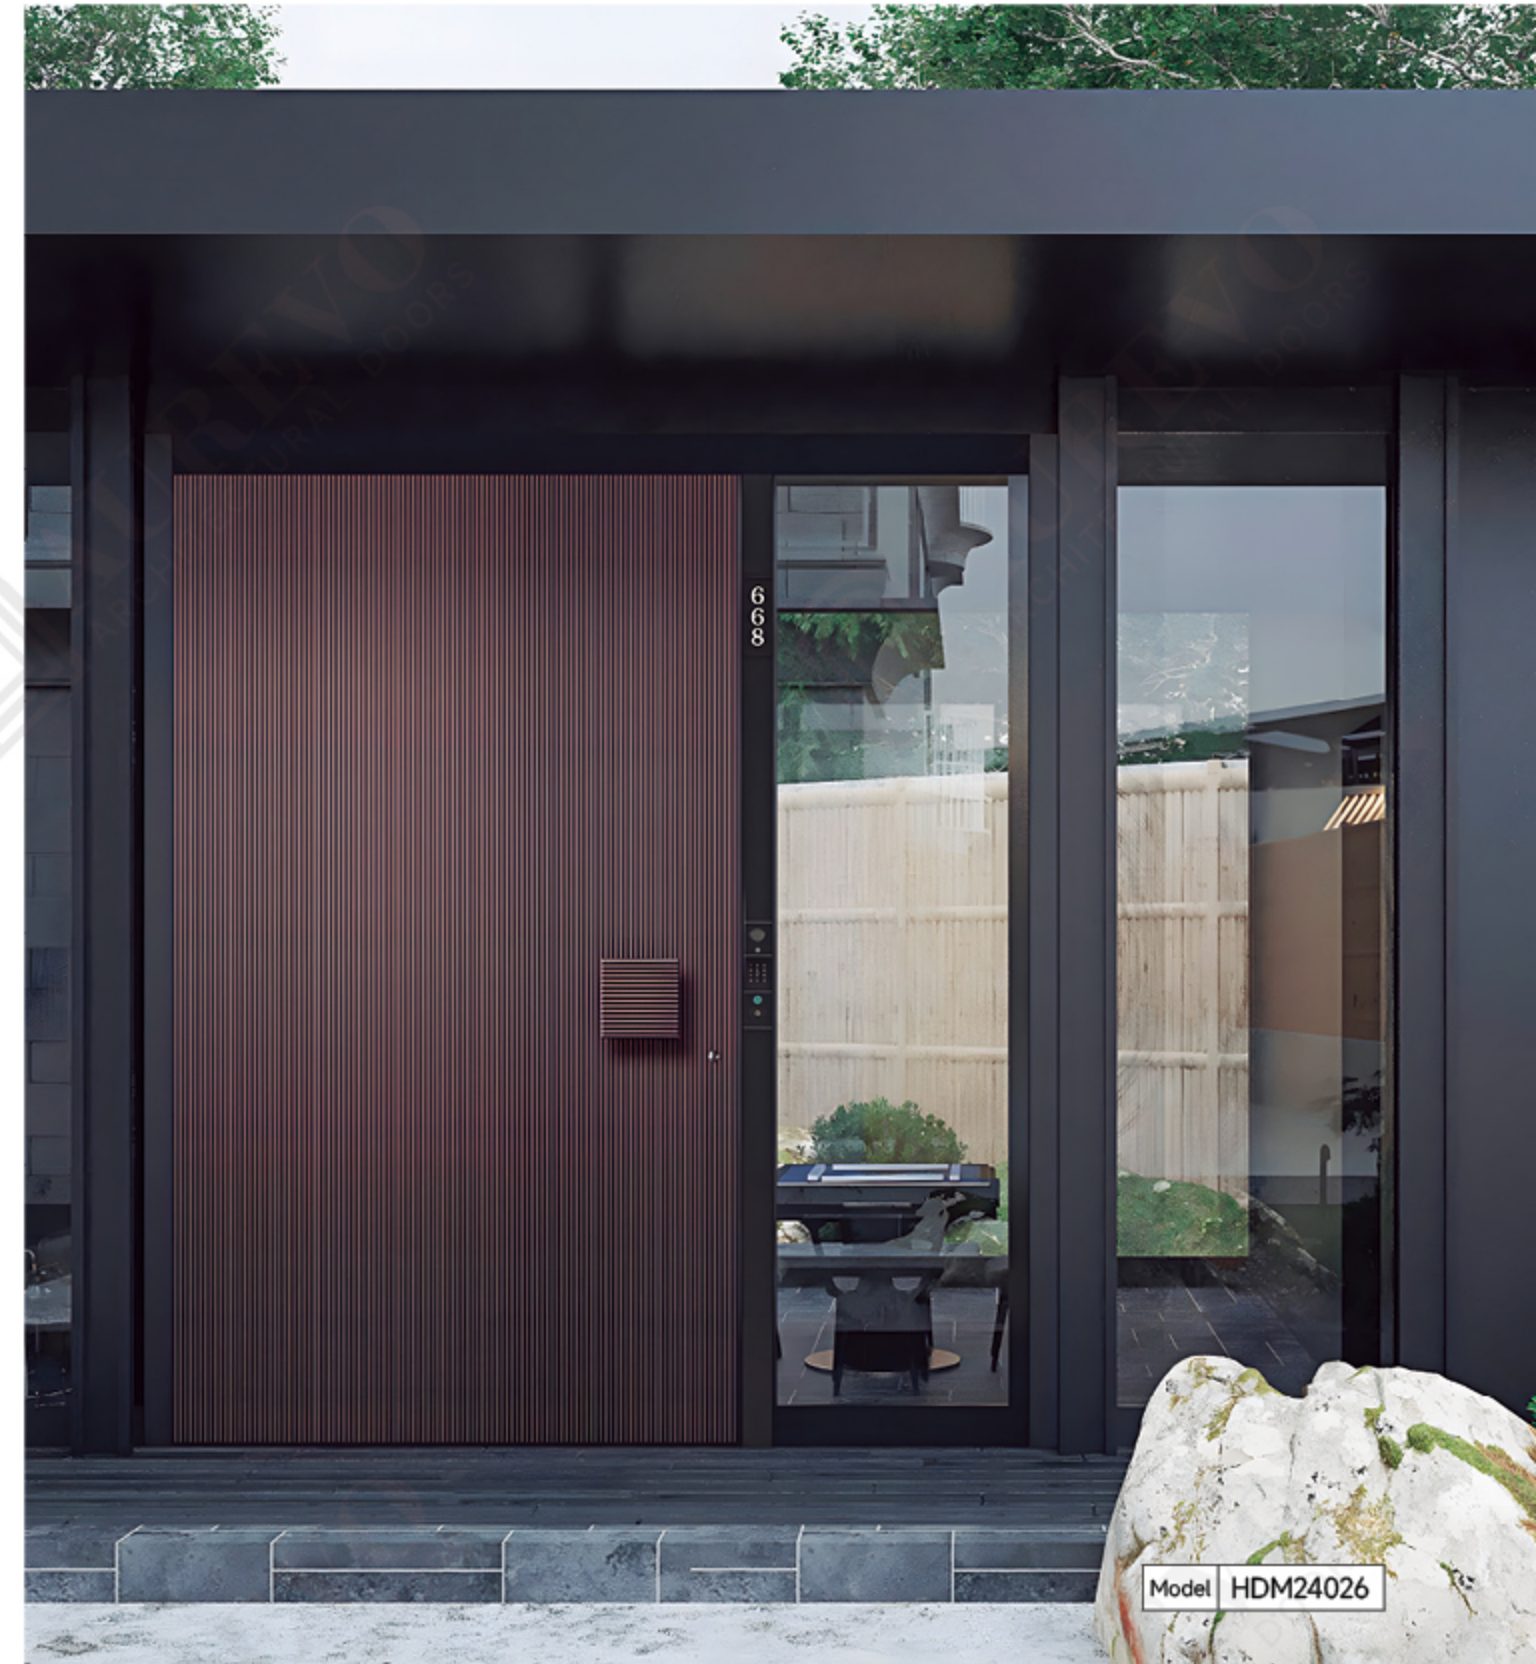

Model HDM24023

Art originates from life, yet rises above it. Feel the pure power of minimalist design—where every detail is crafted with intention and elevated by a spirit of mastery.

Model HDM24024

### THE DYNAMIC RHYTHMIC LINES COMBINE ELEGANCE AND ARTISTIC TEXTURE

The inspired interior design, with its refined temperament, conveys an impression of noble, modern elegance. Its rhythmic, graceful sequential lines and three-dimensional layering enrich the visual depth of the door, reflecting a pursuit of sophistication and style. Through exquisite craftsmanship, the design creates an ideal and comfortable living experience for your home.

EXPLORE THE INFINITE POSSIBILITIES OF HOME AND LIFE,  
AND MAKE YOUR HOME MORE EXCITING

Customized glass doors reflect our emotional and spiritual needs—removing visual clutter and celebrating the purity of space. Using the simplest compositional principles and the language of glass, they bring fluidity and multi-level spatial penetration. The charm of minimalism is expressed in its most authentic and powerful form.

## THERMAL BREAKSTRUCTURAL DESIGN

Doors must withstand a wide range of harsh weather conditions—strong winds, heavy rain, extreme heat, and cold. A thermal-break structure, combined with high-performance sealing, ensures superior resistance to these challenges, delivering a safe, comfortable, and energy-efficient living environment.

## MINIMAL PRESENTATION

No matter how vast the world is, a door remains a simple beginning. Open it, and a better life unfolds. Its refined design caters to even the most discerning eye, encouraging you to never settle for less. With enduring quality, it brings lasting comfort and countless memorable moments.

## TWO-TONE DESIGN

A refined interpretation of modern color aesthetics.

By combining two harmonious tones on a single door surface, the design creates depth, balance, and a distinctive visual rhythm. The lines are clean and elegant, while the contrasting colors bring a subtle yet powerful sense of sophistication—timeless, modern, and effortlessly appealing.

Model HDM24033

## ALUMINIUM PIVOT DOOR SERIES

## BETWEEN THE EXTERIOR AND THE INTERIOR LIES A FUTURE DÉJÀ VU

Escape the noise of the city and create a serene, cozy haven within your home. From the vibrancy of urban life to peaceful stillness, and from constant movement to restful relaxation, the entrance door becomes a source of security and comforting protection. It offers a space where you and your family can gather with joy—embracing a life that is calm, fulfilling, and beautifully your own.

Model HDM24034

## ALUMINUM GLASS DOOR SERIES

No matter how vast life may seem, it is full of opportunities waiting to be explored—each leading toward growth and refinement. Our pursuit of excellence drives us to aim for nothing less than the best. With superior quality at its core, this door series opens the way to fulfilling experiences and remarkable years ahead.

Model HDM24037

Model HDM24038

### EMBRACING TRANQUILITY: LISTENING TO THE HEART'S WHISPER

Glass that communicates through silence becomes a form of expression more powerful than words. Its subtle interplay reveals a deep harmony between elements. The refined blend of metal, glass, and stone brings forth layered textures that seamlessly merge with light, water, and sky—infusing the home with a distinctly modern elegance and a serene, high-quality atmosphere.

Model HDM24039

## ALUMINUM GLASS DOOR SERIES

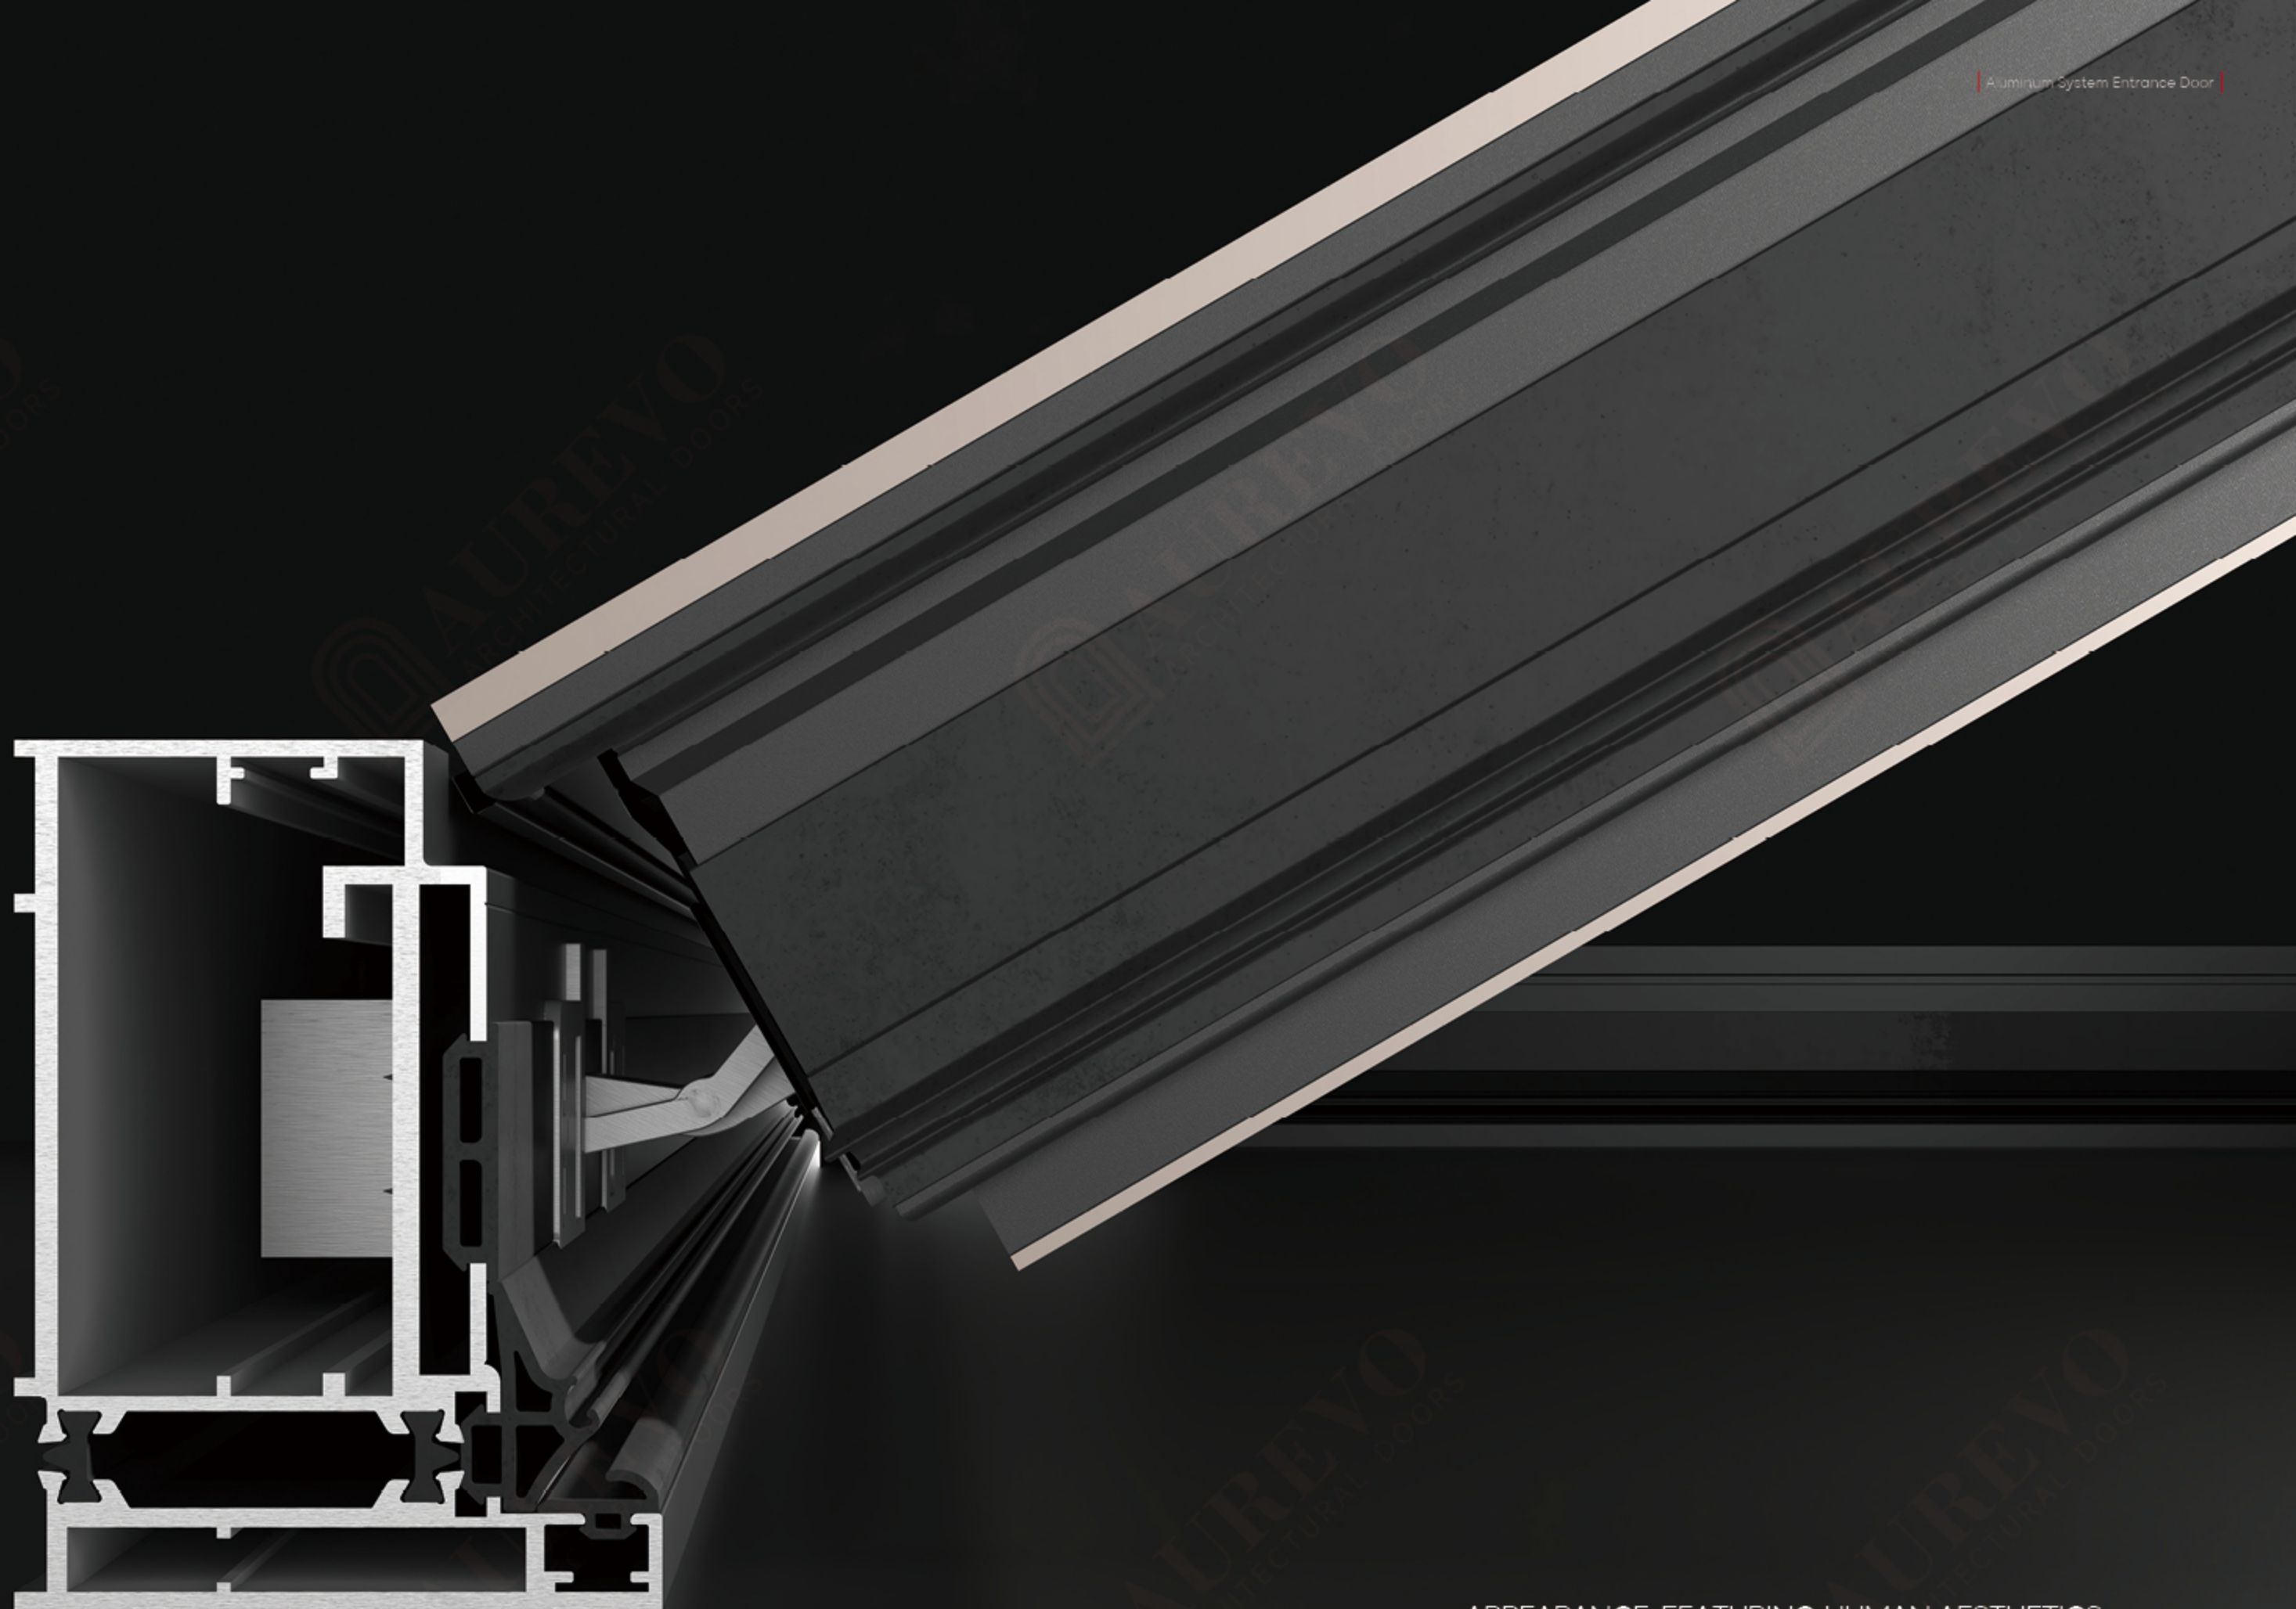

Model HDM24040

### NOBLE TEMPERAMENT GRACEFUL ELEGANCE

With a design that radiates quiet, graceful elegance, this door rises above fleeting trends—embodying timeless dignity and refined sophistication. Its meticulous craftsmanship and seamless visual rhythm create an atmosphere of understated luxury. Unmoved by time, it stands with poise, inviting natural light and gentle warmth into the home, where beauty and tranquility coexist in effortless harmony.

Model HDM24041

#### APPEARANCE: FEATURING HUMAN AESTHETICS

Door panels are the face of modern living spaces, representing both functionality and quality. Guided by a refined modern aesthetic, the design achieves a harmonious balance of form, proportion, and material expression. Supported by the industry's leading appearance design team, each product is created with meticulous attention to detail and offers a diverse range of styles to suit different architectural spaces and personal preferences.

Model HDM24042

## ONE DOOR ONE VIEW - ENTRANCE DOOR SERIES

### "ONE DOOR ONE VIEW" EXCLUSIVE

The truest form of happiness lies in sharing moments with someone you cherish—pausing to appreciate the scenery of your home and feeling time flow gently around you. Its beauty is not declared through bold visuals, but revealed subtly in the atmosphere it creates. It is a way of seeing, a way of thinking, and ultimately, a way of life.

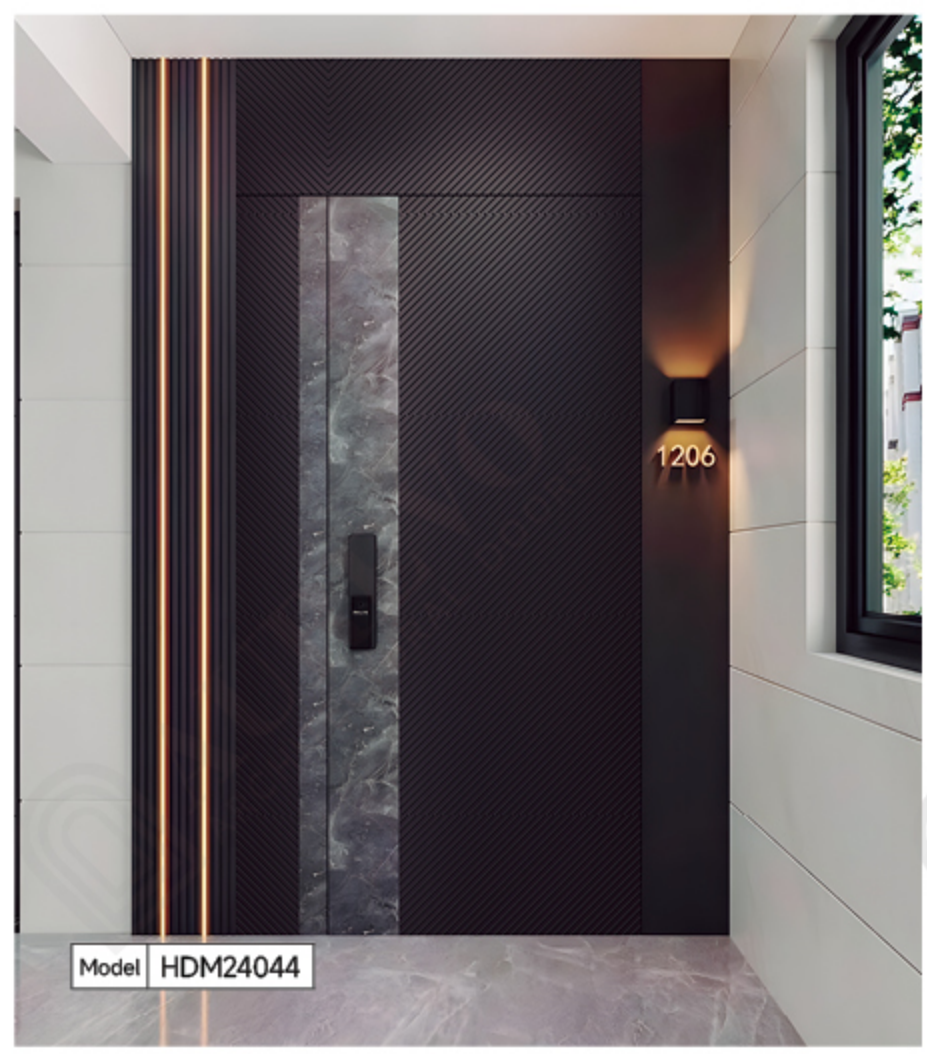

Model HDM24043

## ONE DOOR ONE VIEW – ENTRANCE DOOR SERIES

### “ONE DOOR ONE VIEW” EXCLUSIVE

Your home is a sanctuary of warmth and comfort—a place that reflects refined living. An entrance door that embodies modern elegance is more than a passageway; it is a statement of taste and sophistication. Seamlessly merging functionality with artistic design, it creates a lasting impression while elevating the essence of contemporary living.

Model HDM24046

### ONE DOOR ONE VIEW – ENTRANCE DOOR SERIES

### OBSIDIAN PANEL DESIGN

This design philosophy reflects a continual journey of refinement—an exploration of materials, textures, and the quiet beauty found in simplicity. By embracing patience and a Zen-like mindset, one discovers the deeper essence behind every detail. The door's composition represents ongoing innovation, integrating premium glass and metal elements to create a sophisticated façade. The result is an entrance that offers enhanced comfort, exceptional quality, and intelligent solutions for modern architectural living.

## THERMAL-BREAK STRUCTURAL DESIGN

Doors are often exposed to severe weather conditions—such as strong typhoons, heavy rainfall, extreme heat, and freezing temperatures. With superior sealing performance, thermal-break doors effectively withstand a wide range of harsh environments, ensuring a safer, more comfortable, and thermally stable living experience.

Model HDM24054

## THERMAL-BREAK SYSTEM ENTRANCE DOOR SERIES

### THERMAL-BREAK PORTAL SERIES

When the door opens, it reveals a natural, expansive view; when it closes, it embodies ultimate luxury. Explore a new realm of refined living—where the natural texture of wood veneers, sophisticated color palettes, and pure aesthetics shaped by golden-ratio proportions echo the rhythm of nature itself, elevating every sensory experience to its fullest expression.

Model HDM24055

Model HDM24056

Model HDM24057

### SILENCE THE NOISE, HEAR YOUR HEART

A door is more than an entryway—it is a convergence of elements—metal, glass, and stone—woven together like minds in quiet understanding. It becomes a silent dialogue between strength and transparency, between form and the emptiness that gives it meaning.

It embraces the fluidity of space while grounding the soul within.

As it reflects the harmony of water and sky, it transforms into a threshold where the tangible meets the infinite—an ode to the balance of structure and spirit in contemporary living.

Model HDM24058

## TIMELESS SHADES OF NATURE

The pioneering design showcases a stunning two-tone aesthetic, enriched with refined oriental-inspired patterns that bring depth and visual impact to the space. These elegant details reflect both the architectural character and the owner's individuality, creating a distinctive style infused with modern oriental charm.

Model HDM24059

### ROCK SLAB TEXTURES: EXPERIENCE MOUNTAIN LIVING

A door stands as a silent guardian, its presence commanding attention with a quiet, noble strength. Its surface—a canvas of perception—captures the eye and reflects the essence of all who pass through. In this reimagined form, the interplay of textures and colors is not mere decoration, but an intentional symphony that shapes character and evokes depth. Simplicity is elevated into the extraordinary, creating a threshold where beauty is not only seen, but deeply felt. Every step across this doorway becomes an unspoken dialogue between the self and the infinite.

### SELF-DEVELOPED CONCEALED HINGE

The hinge features opening angles of 110° and 160°, with multi-directional adjustability. By fine-tuning the adjustment screws, the door gap can be precisely calibrated—left and right, up and down—effectively preventing misalignment between the door leaf and the frame.

Model HDM24069

A gateway of bold innovation, where design meets imagination—transforming every entrance into a true masterpiece. It captivates the mind, commands attention, and redefines the way we experience space.

Model HDM24072

## HARMONY IN FORM

A door is more than an entryway—it is a dialogue between form and function, balancing presence and absence, concealment and revelation. Through refined materials and fluid design, it becomes a passage to tranquility, an artistic guardian that preserves the quiet beauty of a private home.

Model HDM24073

## SEALING SYSTEM

The door's sealing system is engineered with an automotive-grade EPDM composite rubber strip, designed for superior insulation performance. This advanced material features a thermally efficient core that delivers exceptional thermal and acoustic protection. Built for long-term durability, it offers outstanding resistance to corrosion, oxidation, and environmental degradation—ensuring reliable performance for years without cracking or deformation.

## ENGRAVING NOBILITY INTO LUXURY

A masterpiece of engineering and artistry, our doors blend avant-garde design with cutting-edge technology. Precision-crafted for superior thermal and acoustic insulation, they incorporate an advanced sealing system for unmatched durability and resilience. With a seamless fusion of strength, sophistication, and innovation, each door transforms an entrance into a symbol of luxury and prestige.
